

SPOTLIGHT INSTALLATION - DISPLAY BOARD user instructions

1

Display board Spotlights include:
1 x halogen bulb
Euro plug, UK adaptor and transformer
Adjustable stalk and clamp bracket
Installation Screwdriver

2

Insert the Euro two pin connector into the UK plug adapter. Press firmly to click into place. Tighten the screw with the supplied screwdriver.

3

Connect the plug and transformer into the main light unit.

4

Insert the pins of the Halogen bulb into the holes in the light head. Tighten the underside screws with the supplied screwdriver.

5

Attach the bracket to the base of the light as shown.

6

Slide the light over the display board. Turn the locking nut to secure into place.

7

You can adjust the tilt by moving the head backward and forward.

8

The height can be adjusted.

9

The light is now assembled and ready for use.
