

## TRIANGULAR DISPLAY PLINTH- PORTABLE COUNTER user instructions

1

Triangular Display Plinth kit contains:  
3 Aluminium edged event panels  
Triangular Metal plinth top  
100 velcro dots

2

Remove the three linked panels from the packaging and place upright on the floor, as shown.

3

Holding the end panels, pull the panels apart.

4

Configure the panels into a triangle shape and pull the two end panels together, butting them up. Place the metal shelf on the top.

5

Place the metal plinth top onto the panels. Ensure lip side down, with the lips resting into the grooves on the aluminium edging.

6

Ensure that the metal shelf sits in the frame grooves and is securely in place. The Triangular display plinth is now ready.

7

Optional carry bag available.
