

Brandon Leaflet Dispenser

Scan our QR code to view the full assembly video

You'll receive 2 printed side panels, round base, footer & shelves.

Step 1
Lay 1 side down, with the print facing the floor. Fit the plain foot section into the designated grooves.

Step 2
Next fit the bottom shelf which has the additional lip at the bottom. Position this shelf on a diagonal.

Step 3
Add the shelves into the grooves which will result in all shelves creating a zig-zag shape.

Step 4

Attach the second side panel into place, with the print facing upwards.

Step 5

Locate the top of the leaflet dispenser and attach the top panel, you'll have 4 screws, 1 for each corner.

Step 6

Take the round base, placing the leaflet stand into the grooves in the base and securing in place with 4 screws.
