

Cascade Leaflet Dispenser

Scan our QR code to view the full assembly video

You'll receive 2 printed side panels, header panels & shelves.

Step 1
Take 1 printed side and slot into the hook like sections of the base component.

Step 2
Repeat the process for the second printed side, the leaflet structure should now be able to stand.

Step 3
Slot the shelves into place using the cut outs available.

Step 4

Finally, slot in the 4 small stoppers, which will hold brochures in place.
